

OCCUPATION-SPECIFIC LANGUAGE TRAINING

TECHNOLOGY

FREE PROGRAM FOR ELIGIBLE NEWCOMERS TO CANADA

OSLT Technology is an intensive program for immigrant professionals who have training and/or experience as Engineering or Architectural Technologists or Technicians or IT specialists from outside Canada. This course provides the technical work-related language skills that you require to enter, and be successful, in your profession in Canada. All OSLT graduates will earn a Humber certificate.

Job-search support, networking and mentoring opportunities are also available.

- Improve your work-related language skills
- Understand Canadian workplace culture
- Improve speaking, listening and pronunciation
- Interact effectively with colleagues and clients
- Develop strong interviewing and networking skills

PROGRAM START

JANUARY 16th, 2018
